

city of kindness Mayors Pledge

A **city of kindness** is what we can create by practicing kindness daily.

We, the undersigned mayors and local government executives, desire to make the world a better place – a kinder place for all. We believe the world works better when people respect one another and leaders prioritize people. We also recognize the health, psychology and civic benefits of kindness.

Leaders of cities, towns and counties can serve as **catalysts of kindness** by inspiring residents to create kinder, more gracious communities; connecting them with ideas, tools and resources to take action; and directing municipal agencies to implement activities that institute kindness as a value.

When mayors take a stand, their communities respond. Therefore, we commit to designating West Palm Beach, FL (insert name of city) as a **city of kindness**. Our intention with this designation is to take steps to foster kindness through encouraging residents and visitors to choose to make the world a better place through kind thoughts and actions.
