1. Enter your address to search

Putting the full address may cause search engine to produce many results.

Start with short version of your address to see what populates.

For example I typed in "401 CLE" and got the result I wanted.

If I typed in the full address I would see many more results because I have increased the search criteria.

You need to select the address from any that are provided.

I only have one result here, but I still need to select it.

Hit "Add" to add that address to the permit.

LOCATIONS

Please select the project location. You can search by property address or the Parcel Control Number (PCN). If you can't find your address, please contact ds_addressing@wpb.org.

Note, a code enforcement lien reduction application is applicable for one single property only. If you have code enforcement liens on more than one property, each property requires a separate lien reduction application.

Click "Save Draft" to save your information and return later to finish the application or click "Next" to move forward to the next step.

Click Next to move to Permit Type.

2. On this tab you will enter a description.
